26 Clarification of Tenders

Any clarification submitted by a Tenderer in respect to its Tender and that is not in response to a request by the Procuring Entity shall not be considered. The Procuring Entity's request for clarification and the response shall be in writing. No change, including any voluntary increase or decrease, in the prices or substance of the Tender shall besought, offered, or permitted, except to confirm the correction of arithmetic errors discovered by the Procuring Entity in the Evaluation of the Tenders, in accordance with ITT 31.

- b “Reservation” is the setting of limiting conditions or withholding from complete acceptance of the requirements specified in the tendering document; and
- c “Omission” is the failure to submit part or all of the information or documentation required in the tendering document.

28 Determination of Responsiveness

28.1 The Procuring Entity's determination of a Tender's responsiveness is to be based on the contents of the Tender itself, as defined in ITT 11.

28.2 A substantially responsive Tender is one that meets the requirements of the tendering document without material deviation, reservation, or omission. A material deviation, reservation, or omission is one that:

- a If accepted, would:
 - i. Affect in any substantial way the scope, quality, or performance of the Lease Items and Related Services specified in the Contract; or
 - ii. Limit in any substantial way, in consistent with the tendering document, the Procuring Entity's rights or the Tenderer obligations under the Contract; or
- b if rectified, would unfairly affect the competitive position of other Tenderers presenting substantially responsive Tenders.

28.3 The Procuring Entity shall examine the technical aspects of the Tender submitted in accordance with ITT 16 and ITT 17, in particular, to confirm that all requirements of Section VII, Schedule of Requirements have been met without any material deviation or reservation, or omission.

28.4 If a Tender is not substantially responsive to the requirements of tendering document, it shall be rejected by the Procuring Entity and may not subsequently be made responsive by correction of the material deviation, reservation, or omission.

29 Non-conformities, Errors and Omissions

29.1 Provided that a Tender is substantially responsive, the Procuring Entity may waive any non-conformities in the Tender.

29.2 Provided that a Tender is substantially responsive, the Procuring Entity may request that the Tenderer submit the necessary information or documentation, within a reasonable period of time, to rectify nonmaterial non-conformities or omissions in the Tender related to documentation requirements. Such omission shall not be related to any aspect of the price of the Tender. Failure of the Tenderer to comply with the request may result in the rejection of its Tender.

29.3 Provided that a Tender is substantially responsive, the Procuring Entity shall rectify quantifiable nonmaterial non-conformities related to the Tender Price. To this effect, the Tender Price shall be adjusted, for comparison purposes only, to reflect the price of a missing or non-conforming item or component in the manner specified in the TDS.

30 Correction of Arithmetical Errors

30.1 The tender sum as submitted and read out during the tender opening shall be absolute and final and shall not be the subject of correction, adjustment or amendment in anyway by any person or entity.

30.2 Provided that the Tender is substantially responsive, the Procuring Entity shall handle errors on the following basis:

- a Any error detected if considered a major deviation that affects the substance of the tender, shall lead to disqualification of the tender as non-responsive.
- b Any errors in the submitted tender arising from a miscalculation of unit price, quantity, subtotal and total bid price shall be considered as a major deviation that affects the substance of the tender and shall lead to disqualification of the tender as non-responsive. and
- c If there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail

31 Conversion to Single Currency

31.1 No conversion to single currency is expected since all tenders will be in Kenya shillings.

32 Margin of Preference and reservations

32.1 No Margin of Preference and Reservations shall be allowed in this tender

33 Evaluation of Tenders

33.1 The Procuring Entity shall use the criteria and methodologies listed in this ITT and Section III, Evaluation and Qualification criteria. No other evaluation criteria or methodologies shall be permitted. By applying the criteria and methodologies, the Procuring Entity shall determine the Most Advantageous Tender. This is the Tender of the Tenderer that meets the qualification criteria and whose Tender has been determined to be:

- a Substantially responsive to the tendering document; and
- b The lowest evaluated cost.

33.2 To evaluate a Tender, the Procuring Entity shall consider the following:

- a Price adjustment due to discounts offered in accordance with ITT 14.4;
- b Price adjustment due to quantifiable non material non-conformities in accordance with ITT 30.3; and
- c The additional evaluation factors are specified in Section III, Evaluation and Qualification Criteria.

33.3 The estimated effect of the price adjustment provisions of the Conditions of Contract, applied over the period of the Lease Contract, shall not be considered in Tender evaluation.

33.4 In the case of multiple contracts or lots, Tenderers are allowed to tender for one or more lots and the methodology to determine the lowest evaluated cost of the lot (contract) and for combinations, including any discounts offered in the Form of Tender, is specified in Section III, Evaluation and Qualification Criteria.

33.5 The Procuring Entity's evaluation of a Tender will include and consider:

- a taxes, which will be payable on the Lease Items if a contract is awarded to the Tenderer;
- b any allowance for price adjustment during the period of the Lease contract, if provided in the Tender.

33.6 The Procuring Entity's evaluation of a Tender may require the consideration of other factors, in addition to the Tender Price quoted in accordance with ITT 14. These factors may be related to the characteristics, performance, and terms and conditions of Lease and Related Services. The effect of the factors selected, if any, shall be expressed in monetary terms to facilitate comparison of Tenders, unless otherwise specified **in the TDS** from amongst those set out in Section III, Evaluation and Qualification Criteria. The criteria and methodologies to be used shall be as specified in ITT 34.2 (f).

34 Comparison of Tenders

34.1 The Procuring Entity shall compare the evaluated costs of all substantially responsive Tenders established in accordance with ITT 34.2 to determine the Tender that has the lowest evaluated cost. The comparison shall be on the basis of total cost for all Lease Items, and related services, together with prices for any required installation, training, commissioning and other services.

35 Abnormally Low Tenders and Abnormally High

Tenders Abnormally Low Tenders

- 35.1 An Abnormally Low Tender is one where the Tender price, in combination with other elements of the Tender, appears so low that it raises material concerns as to the capability of the Tenderer in regards to the Tenderer's ability to perform the Contract for the offered Tender Price.
- 35.2 In the event of identification of a potentially Abnormally Low Tender, the Procuring Entity shall seek written clarifications from the Tenderer, including detailed price analyses of its Tender price in relation to the subject matter of the contract, scope, proposed methodology, schedule, allocation of risks and responsibilities and any other requirements of the Tender document.
- 35.3 After evaluation of the price analyses, in the event that the Procuring Entity determines that the Tenderer has failed to demonstrate its capability to perform the Contract for the offered Tender Price, the Procuring Entity shall reject the Tender.

Abnormally High Tenders

- 35.4 An abnormally high tender price is one where the tender price, in combination with other constituent elements of the Tender, appears unreasonably too high to the extent that the Procuring Entity is concerned that it (the Procuring Entity) may not be getting value for money or it may be paying too high a price for the contract compared with market prices or that genuine competition between Tenderers is compromised.
- 35.5 In case of an abnormally high price, the Procuring Entity shall make a survey of the market prices, check if the estimated cost of the contract is correct and review the Tender Documents to check if the specifications, scope of work and conditions of contract are contributory to the abnormally high tenders. The Procuring Entity may also seek written clarification from the tenderer on the reason for the high tender price. The Procuring Entity shall proceed as follows:
- i) If the tender price is abnormally high based on wrong estimated cost of the contract, the Procuring Entity may accept or not accept the tender depending on the Procuring Entity's budget considerations.
 - ii) If specifications, scope of work and/or conditions of contract are contributory to the abnormally high tender prices, the Procuring Entity shall reject all tenders and may retender for the contract based on revised estimates, specifications, scope of work and conditions of contract, as the case may be.
- 35.6 If the Procuring Entity determines that the Tender Price is abnormally too high because genuine competition between tenderers is compromised (*often due to collusion, corruption or other manipulations*), the Procuring Entity shall reject all Tenders and shall institute or cause competent Government Agencies to institute an investigation on the cause of the compromise, before retendering.

36 Qualification of the Tenderer

- 36.1 The Procuring Entity shall determine, to its satisfaction, whether the eligible Tenderer that is selected as having submitted the lowest evaluated cost and substantially responsive Tender, meets the qualifying criteria specified in Section III, Evaluation and Qualification Criteria.
- 36.2 The determination shall be based upon an examination of the documentary evidence of the Tenderer qualifications submitted by the Tenderer, pursuant to ITT 17. The determination shall not take into consideration the qualifications of other firms such as the Tenderer subsidiaries, parent entities, affiliates, subcontractors (other than specialized subcontractors if permitted in the tendering document), or any other firm(s) different from the Tenderer.
- 36.3 An affirmative determination shall be a prerequisite for award of the Contract to the Tenderer. A negative determination shall result in disqualification of the Tender, in which event the Procuring Entity shall proceed to the Tenderer who offers a substantially responsive Tender with the next lowest evaluated cost to make a similar determination of that Tenderer qualifications to perform satisfactorily.

37 Procuring Entity's Right to Accept Any Tender, and to Reject Any or All Tenders

- 37.1 The Procuring Entity reserves the right to accept or reject any Tender, and to annul the Tendering process and reject all Tenders at any time prior to Contract Award, without there by incurring any liability to Tenderers. In

case of annulment, all Tenders submitted and specifically, tender securities, shall be promptly returned to the Tenderers.

- 41.1 On receipt of the Procuring Entity's Notification of Intention to Enter into a Contract referred to in ITT 43, an unsuccessful tenderer may make a written request to the Procuring Entity for a debriefing on specific issues or concerns regarding their tender. The Procuring Entity shall provide the debriefing within five days of receipt of the request. .2 Debriefings of unsuccessful Tenderers may be done in writing or verbally. The Tenderer shall bear its own costs of attending such a debriefing meeting.

42 Letter of Award

If the Performance Security furnished by the successful Tenderer is in the form of a bond, it shall be issued by a bonding or insurance company that has been determined by the successful Tenderer to be acceptable to the Procuring Entity. A foreign institution providing a bond shall have a correspondent financial institution located in Kenya, unless the Procuring Entity has agreed in writing that a correspondent financial institution is not required.
- 44.2 Failure of the successful Tenderer to submit the above-mentioned Performance Security or sign the Contract shall constitute sufficient grounds for the annulment of the award and forfeiture of the Tender Security. In that event the Procuring Entity may award the Contract to the Tenderer offering the next Most Advantageous Tender.
- 44.3 Performance security shall not be required for contracts estimated to cost less than Kenya shillings five million shillings.

- 2.2 Kenya's public procurement and asset disposal act (*no. 33 of 2015*) under Section 66 describes rules to be followed and actions to be taken in dealing with Corrupt, Coercive, Obstructive, Collusive or Fraudulent practices, and Conflicts of Interest in procurement including consequences for offences committed. A few of the provisions noted below highlight Kenya's policy of no tolerance for such practices and behavior:
1. A person to whom this Act applies shall not be involved in any corrupt, coercive, obstructive, collusive or fraudulent practice; or conflicts of interest in any procurement or asset disposal proceeding;
 2. A person referred to under subsection (1) who contravenes the provisions of that sub-section commits an offence;
 3. Without limiting the generality of the subsection (1) and(2), the person shall be—
 - a) disqualified from entering into a contract for a procurement or asset disposal proceeding; or

 - 7 An employee, agent or member described in subsection (1) who refrains from doing anything prohibited under that subsection, but for that subsection, would have been within his or her duties shall disclose the conflict of interest to the procuring entity;
 - 8 If a person contravenes subsection (1) with respect to a conflict of interest described in subsection (5) (a) and the contract is awarded to the person or his relative or to another person in whom one of them had a direct or indirect pecuniary interest, the contract shall be terminated and all costs incurred by the public entity shall be made good by the awarding officer. Etc.
- 2.3 In compliance with Kenya's laws, regulations and policies mentioned above, the Procuring Entity:
- a) Defines broadly, for the purposes of the above provisions, the terms set forth below as follows:
 - i) "corrupt practice" is the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence improperly the actions of another party;

- (ii) “fraudulent practice” is any act or omission, including misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to obtain financial or other benefit or to avoid an obligation;

 - iv) “coercive practice” is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party;
 - v) “obstructive practice” is:
 - Deliberately destroying, falsifying, altering, or concealing of evidence material to the investigation or making false statements to investigators in order to materially impede investigation by Public Procurement Regulatory Authority (PPRA) or any other appropriate authority appointed by Government of Kenya into allegations of a corrupt, fraudulent, coercive, or collusive practice; and/or threatening, harassing, or intimidating any party to prevent it from disclosing its knowledge of matters relevant to the investigation or from pursuing the investigation; or
 - Acts intended to materially impede the exercise of the PPRA's or the appointed authority's inspection and audit rights provided for under paragraph 2.3 e. below.
- b) Defines more specifically, in accordance with the above procurement Act provisions set forth for fraudulent and collusive practices as follows:
- "fraudulent practice" includes a misrepresentation of fact in order to influence a procurement or disposal process or the exercise of a contract to the detriment of the procuring entity or the tenderer or the contractor, and includes collusive practices amongst tenderers prior to or after tender submission designed to establish tender prices at artificial non-competitive levels and to deprive the procuring entity of the benefits of free and open competition.
- c) Rejects a proposal for award¹ of a contract if PPRA determines that the firm or individual recommended for award, any of its personnel, or its agents, or its sub-consultants, sub-contractors, service providers, suppliers and/ or their employees, has, directly or indirectly, engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices in competing for the contract in question;

 - f) Pursuant to Section 62 of the above Act, requires Applicants/Tenderers to submit along with their Applications/Tenders/Proposals a “Self-Declaration Form” as included in the procurement document declaring that they and all parties involved in the procurement process and contract execution have not engaged/will not engage in any corrupt or fraudulent practices.

²Inspections in this context usually are investigative (i.e., forensic) in nature. They involve fact-finding activities undertaken by the Investigating Authority or persons appointed by the Procuring Entity to address specific matters related to investigations/audits, such as evaluating the veracity of an allegation of possible Fraud and Corruption, through the appropriate mechanisms. Such activity includes but is not limited to: accessing and examining a firm's or individual's financial records and information, and making copies thereof as relevant; accessing and examining any other documents, data and information (whether in hard copy or electronic format) deemed relevant for the investigation/audit, and making copies thereof as relevant; interviewing staff and other relevant individuals; performing physical inspections and site visits; and obtaining third party verification of information.

PART 2 - LEASE REQUIREMENTS

SECTION VI - SCHEDULE OF REQUIREMENTS

1. Overview of the Kenyan Sugar Industry

a. Background

The Government of Kenya (GoK) has through its cabinet approved the privatization of 5 state-owned sugar factories by a long term leasing model which shall transfer each factory to the lessee "as is where is" for redevelopment and operation.

In preparation for privatization, GoK has commenced the program by approving the restructuring of the balance sheets of each sugar company through:

- i. a debt write off for debts owed to it and Kenya Sugar Board (commodity Fund)
- ii. write off of growers debts owed to Kenya Sugar Board (commodity Fund)
- iii. write off of tax penalties and interest as at 30th June 2009 and any additional interest and penalties that have accrued since then

The objective is to facilitate turnaround of these sugar companies to profitability after modernization and efficient management without bureaucratic encumbrances to enhance competitiveness in the EAC, COMESA and world sugar markets.

Factory premises generally consists of:

1. Factory and office buildings,
2. Factory machinery and equipment,
3. Agricultural machinery and equipment,
4. Nucleus farm,
5. Staff housing, guest houses,
6. Schools and other social amenities,
7. Sports stadium,
8. Service contractor yards.

The Ministry of Agriculture, Livestock, Fisheries and Cooperatives and STATE DEPARTMENT FOR AGRICULTURE on behalf of GoK wishes to engage investors with world-class experience in the development and management of large sugar complexes to redevelop these sugar factories over a lease hold period of at least 30 years.

Description of the service being sought

The Government of Kenya through the Ministry of Agriculture and Livestock Development is seeking investor(s) who will lease, redevelop and operate these sugar complexes at sufficient processing capacities to support diversification into cogeneration of export power, production of bioethanol and allied coproducts.

Overview

Agriculture in the Kenyan economy employs over 70% of the total labour force and contributes over 27.3% of the country's Gross Domestic Product (GDP) in 2014 making it one of the dominant sectors in the economy. This contribution mainly comes from tea, coffee, livestock rearing and horticulture. While sugar is not one of the leading agricultural products, its contribution to the economy remains significant as it directly and indirectly supports over 6 million Kenyans representing about 15% of the entire Kenyan population.

Sugar is produced in four main sugar belts namely; Nyando, Western Kenya, South Nyanza and Coastal in twelve sugar factories on fairly flat regions. About 85% of the total cane supply is from small-scale growers whilst the remaining is from the nucleus estates of the sugar factories.

(Source: Kenya Sugar Industry Strategic Plan)

2. Key players in the sector

The key stakeholders in the industry and their interdependencies are outlined below: -

- i. The Government;
- ii. The Kenya Sugar Millers Association;
- iii. The Out-growers' Associations;

i) **Government**

As part of its role as the lead agent in national development, the Government has extensive investments in the sector through both loans and equity. In addition, through its ministries and other institutions, the Government plays the roles outlined below.

- a) The **Government** continues to own and/or control five companies currently earmarked for privatization. In addition, it also has 20% residual shareholding in the privatized Mumias Sugar Company Ltd, which is quoted at the Nairobi Securities Exchange.
- b) **The Ministry of Agriculture, Livestock and Fisheries:** The ministry formulates, implements, monitors agricultural legislations, regulations and policies.
- c) **The National Treasury:** In addition to the investment function and its role as custodian of public assets, the National Treasury has over the years undertaken the role of mobilizing most of the resources required to develop the sugar sub-sector. This has mainly been through direct Government investments vide loans, equity or grants or through loans guaranteed by Governments and loans borrowed by the Government and on-lent to

the sugar companies. Most of the debt lent to the companies has not been repaid, making the Treasury a major creditor to the sub sector.

- d) **The Kenya Revenue Authority (KRA):** The Authority is the Government agent with the specific mandate for collecting revenue on behalf of the Government. It also collects sugar levy as an agent of Kenya Sugar Directorate.
- e) **The Kenya Bureau of Standards:** The Kenya Bureau of Standards is charged with the responsibility of identifying standards needs for goods produced or imported into Kenya. It sets standards for the sugar products and ensures compliance with the set standards.
- f) **The Kenya Plant Health Inspectorate:** The Inspectorate ensures certification of seed cane as raw materials for production of sugar
- g) **National Environmental Management Authority:** The Authority issues guidelines on environment, health and safety issues.
- h) **Kenya Sugar Board:** Mandated to develop, regulate, and promote the sugar industry.
- i) **The Kenya Sugar Research and Training Institute** The institute has the dual role of conducting research and developing appropriate technologies, products and services for the sustainable and enhanced production of sugar cane and related crops; and testing and disseminates improved production technologies, in collaboration with stakeholders.

3. The Kenya Sugar Millers Association

The Association is made of millers and jaggery owners in the sugar sector. The Association seeks to influence the policy issues affecting the industry and to champion the welfare of the sugar millers' owners.

4. The Out-growers Associations

There are a number of associations formed by Out-growers who supply sugar cane to the sugar factories. These include Out-growers' companies, societies, unions and Savings and Credit Co-operative Societies (SACCOs). These associations are members of Kenya Sugar Cane Growers Association (KESGA) and Kenya National Federation of Sugar Cane Farmers (KNFSF). The Out-growers institutions draw their membership from sugarcane farmers. The farmers grow and supply approximately 80% of the cane crushed by the affiliated sugar factories.

1. Payment of pending bills and restoring trust and encourage production

1.1 Payments and Outstanding debts

The National Treasury and The National Assembly approved the Action Plan to revive and commercialize State Owned Sugar Companies as communicated vide Certificate No. 039/13th/2023 with” the aim of leasing the five (5) State owned Mills within the provisions of the Public Private Partnership Act (No. 14 of 2021) to create a competitive sector with the ability to withstand the withdrawal of COMESA safeguards.” The action plan approved for write-off of debts amounting to KShs. 65,778,448,646 as detailed in the Table below.

Debts Approved for Write-off

Sugar Company	GoK	Kenya Sugar Board	Commodities Fund	Total
South Nyanza	888,122,169	-	503,244,772	1,391,366,942

2. Banning of sugar imports to protect local farmers:

2.1 Sugar Production, Imports and Exports: 2020 – 2024 (Mt)

Sugar production has seen significant growth over the recent years, with the exception of 2023, when production was hampered by an extended drought situation. This shortage necessitated the closure of mills for a period of four months to allow for sugarcane regeneration. In 2024, there has been a notable rebound, with production totalling 832,000 MT. The demand-supply gap is closing up and by 2026, Kenya is expected to become a net sugar exporter.

YEAR	SUGAR PRODUCTION (MT)	SUGAR IMPORTS (MT)			EXPORT (MT)
		MILL/BROWN	WHITE REFINED	TOTAL	
2020	603,788	309,408	132,985	442,393	375
2021	700,241	252,180	174,154	426,334	1,196
2022	796,554	133,139	187,569	320,708	359
2023	472,773	445,662	162,516	608,178	474
2024	832,000	164,053	175,292	339,345	490

Similarly, there has been a reduction in sugar imports over the recent years, with imports decreasing from 442,000

MT in 2020 to 339,000 MT in 2024. Imports from COMESA countries have significantly declined during this period, largely due to the reduced availability of sugar from these countries. As a result, most of the sugar imports have been sourced from outside COMESA countries, particularly white refined sugar.

ORIGIN	2020	2021	2022	2023	2024
COMESA	314,978	266,325	163,019	141,692	84,220
EAST AFRICA COMMUNITY	28,109	70,509	43,538	42,891	34,059
REST OF THE WORLD	99,306	89,500	114,150	423,595	221,067
TOTAL	442,393	426,334	320,708	608,178	339,345

3. Expanding sugarcane growing zones beyond the traditional areas in Western Kenya:

New sugarcane frontiers are in the coastal region – the lower Tana Delta and the Bura Irrigation scheme. There is also interest in the Kerio Valley, where studies have been done and pointed to good sugarcane potential, albeit faced with poor infrastructure challenges.

4. The impact of Sugar Act 2024 to farmers and millers since enactment:

4.1 Key Provisions of the Sugar Act No. 11 of 2024

The Sugar Act was assented into law by His Excellency the President of the Republic of Kenya on 1st November 2024. The commencement date for the Act is 21st November 2024.

- 2) Establishment of the Kenya Sugar Research and Training Institute.
- 3) Introduction of the Sugar Development Fund to finance the activities of the sugar industry – sugarcane development; factory rehabilitation, infrastructure development; sugar research and training, support for out-grower institutions, and the administration of the Kenya Sugar Board.
- 4) Establishment of the Sugar Arbitration Tribunal.
- 5) Sugar industry safeguard measures (management of sugar imports).
- 6) Appointment of Sugar Crop Inspectors.
- 7) The delineation of sugarcane catchment areas, into regions composed of sugarcane growing counties, for purposes of election of grower representatives to the Kenya Sugar Board; as well as the securing the availability and sustainable supply of raw materials for processing by all millers.
- 8) Guidelines on agreements between parties in the sugar industry.
- 9) Registration and licensing of players.
- 10) Development of Regulations to operationalize the Sugar Act

4. Challenges in the sector:

~~Operationalization of the Sugar Act 2024 through the various Regulations will cure the outstanding challenges in the industry, key among them being: low funding for sugarcane development and milling; weak out-grower institutions; low availability of quality planting material; weak research infrastructure; and poor farmers/millers' relations.~~
