

## **TREES PLANTEING AT KIU WETLANDS, MAKUENI**

Bonface Simba, the Director of Administration at the State Department for Livestock Development, represented the Cabinet Secretary and the Principal Secretary in a tree-planting exercise at Kiu Wetlands, Makueni.

The initiative, conducted in collaboration with the County Commissioner's Office, NEMA, Makueni County Government, KEFRI, KFS, Friends of Kiu, and the local community, saw the successful planting of 10,000 trees. Encouragingly, an assessment confirmed that over 90% of previously planted trees have survived.

This effort underscores the department's commitment to environmental conservation and climate resilience.
